

ABOUT ELEMENT 13

A pleated screen built for the way openings are getting larger.

Element 13 manufactures Aire — a custom pleated screening system for door and window openings up to twenty-four feet wide. Built to the opening, in El Segundo, California. Shipped in ten business days. We sell exclusively through dealers.

- Custom-manufactured to the opening
- Ten business days, order to delivery
- Five-millimeter sill — lowest in the category
- Made in Los Angeles

HQ El Segundo, California

FOR DEALERS

Add a screen line that won't slow your project schedule.

Aire ships in ten business days, mounts in an afternoon, and is supported by a manufacturing team forty-five minutes from your showroom. Same pricing for every dealer in the program.

Schedule a fifteen-minute call. By the end, both sides know whether Aire fits.

ELEMENT 13

FOR DEALERS · 2026

AIRE — PLEATED SCREENS

The screen disappears. Not the view.

Custom pleated screening systems for large-format door and window openings. Manufactured in El Segundo, California. Shipped in ten business days.

EL SEGUNDO · CALIFORNIA

THE SYSTEM

Four configurations. One cartridge.

Aluminum profile, Kynar coating, pleated PET mesh — configured to any opening up to 144 inches single-span or 288 inches dual-span.

WHY DEALERS CARRY AIRE

Four operational differences a competitor can't match.

— 01 A 5MM SILL

The lowest sill in the category. Most pleated systems run a 15mm bottom guide. At 5mm, the threshold disappears underfoot.

— 02 TEN BUSINESS DAYS

Order to delivery. Phantom is roughly four weeks. Mirage is four to six. Centor is gated and longer. The screen ships to the project schedule.

— 03 EL SEGUNDO MANUFACTURING

Built forty-five minutes from most of LA County. Every other manufacturer in the category is in Australia, Canada, Quebec, or Italy.

— 04 INSTANT QUOTES

Approved dealers get a web calculator that produces a customer-facing PDF quote in under thirty seconds. Quote on the showroom floor.

ST · AIRE

Single-span,
vertical

Single panel · For
openings taller than
wide.

XL · AIRE

Single-span,
wide

Up to 144" × 120" ·
Bifold and large
multislide.

DC / DL

Dual-panel

Up to 288" wide ·
Central or lateral
close.

FACE MOUNT

Surface install

For frames where
inside-mount isn't
possible.

THE DEALER PROGRAM

From conversation to first order in under a week.

Same pricing for every dealer in the program. A single-page Dealer Terms of Service. The kit ships within forty-eight hours of signing.

— 01 A FIFTEEN-MINUTE CALL

We talk about your business and your projects. Both sides leave knowing whether Aire fits.

— 02 SAMPLE REVIEW

We bring the cartridge to your showroom or you visit El Segundo. You hold the product. We walk the calculator.

— 03 DEALER TERMS SIGNED

A single-page agreement, signed electronically. No fifty-page contract.

— 04 KIT IN HAND

Sample, calculator access, sales materials, install guide. You're operational the same week.

Schedule a fifteen-minute call to start.
